**Vendor Guidelines**

Please arrive and park your vehicle in your space by 8:30 am.

You must keep your vehicle in your spot until the market ends, even if you've sold out all your items. It will be impossible to move vehicles during the market.

In bad weather, we will generally be open. Sometimes in heavy rain and/or thunderstorms, we will have to decide whether or not to set up or when to break down early. You will get a call or can call the volunteer in charge of this.

All items must be from you, the producer only.

If you are advertising and selling organic produce, you must display or hang your organic certification for the public.

Sellers are not allowed to give away or sell animals.

Sellers must provide their own tables, canopies/umbrellas, change, bags and advertising signs. Sellers determine their own prices and must be able to make their own change.

Vendors should not smoke nor bring dogs.

You may not give your space away or share your space with another vendor.

Sellers must clean their own area thoroughly at the conclusion of the event.
